Summer Soars Into Fall

GHMC members enjoy one of the last shows of summer at the Roland Freedom Center's Planes, Trains and Automobiles Show at the Nut Tree Airport. Pictured from Left to right: Laila, Peggy & Jake Mathews, Lisa & Peter Mitsopoulos, Alice & Paul Troxell, Sue Calvert, Bill Davis, Terry Burke & Brian Evans. For more info and great pictures see Sue's article on page 6.

CLUB PURPOSE

The Golden Hills Mustang Club, established in 1982, is a nonprofit organization, the purpose of which is to promote the admiration, ownership, care and maintenance of the Ford Mustang Automobile - regardless of model year.

The club provides a social group for its members whereby they can meet, socialize and maintain a spirit of good fellowship, and participate in activities including the use of their Mustang.

The club serves as a medium for the exchange of ideas, information and parts, and is dedicated to furthering the interest of owners and drivers of the Ford Mustang.

Moving Forward

By President Sue Calvert

Welcome to Autumn, Everyone!

The evenings are now cooling off nicely and the days are still warm. Pumpkin spice is beginning to fill the air and Halloween decorations are everywhere. Speaking of Halloween...our annual Trunk & Treat event at Ron DuPratt Ford will take place on Saturday, October 21st. This is always a fun event and brings out the “kid” in all of us! Complimentary coffee and donuts will be provided by the dealership. So, pack a picnic lunch, grab the candy and pick out your favorite costume to entertain the trick-or-treaters who will be stopping by our display! We will send out an email blast with additional information as the date approaches.

Our General Membership Meetings have been well-attended and everyone is having fun with sticking to a theme for our raffle prizes. This month’s meeting will be held on Tuesday, October 24th, and the Raffle Prize theme is “Halloween.” Please plan on attend-

ing this extra special meeting! We have a lot of business to discuss – including NOMINATIONS for our 2024 Officers and Board of Directors. Please take a look at the “job descriptions” in this issue of Pony Tales and consider running for one of these positions. This is YOUR club and there’s no better way to shape the future of it than getting involved in the decision-making process! If you would like to run for a certain position, but cannot attend the meeting on October 24th, please let me know and I’ll be sure to get your name onto the ballot that will be mailed out to each member household in November. Besides...the monthly board meetings are a lot of fun!!

Don’t forget to check this month’s calendar of events. October has something for everyone!

See you soon!

ARE MY DUES CURRENT?

2023 IS ALMOST OVER AND A FEW PAYMENTS ARE *PAST DUE!*

A Big Thank You to those who have already paid, however you won’t get an Invitation to the Christmas party or a Ballot to vote if your dues are not current, or we don’t have your correct address!

If you are unsure whether you have paid or not, please write to me (Norma McCabe) at:
membership@goldenhillsmustangclub.com

If you would like to send your check in the mail there is an application on our website, or contact me to have one mailed to you. If you would like to use PayPal there is a link on our website - Click Join Our Club and scroll down to: *pay online for Membership Renewal (\$30)*** or you can go to your PayPal account and send money using the email :**
membership@goldenhillsmustangclub.com

Whether you pay by check or online, please fill out a new application for our records and either mail it to P.O. Box 497, Fairfield, CA 94533-0049 or email it to the above address.

Thank you! Please Stay Well and hope to see you soon! Norma McCabe

The 44th International Mustang Meet

Anaconda, Montana Sept 1-3, 2023

As it starts out this 44th meet 4 cars were prepared to take the trip to Montana. But unfortunately 3 stayed home in California due to illness's and a babies birth. Congratulations Stafford's on the new Grandson. We missed all of you and wish you could have made the trip with us.

Terry and I drove to Sparks early in the morning the first day and had breakfast with long time friend Jim Shupe. Leaving Sparks we drove to Jackpot, NV for the night.

The next day was not so long and the scenery was much better. Arriving at the Fairmont Springs Resort at 4pm was exciting to say the least. Checking in to the room, unloading the Mustang and then washing off all the bugs. At last we got to relax and have dinner with Ileine's cousins.

Greet and meet that night was in the hotel with snacks beer and drinks abound. Nice speakers and info on the area.

Showtime was the next morning. Getting the Mustang out on the show site was pretty easy as it was next to the hotel . We spent the day looking at the amazing mustangs and visiting with all. When done the Mustang went back to the parking lot and off we went to dinner with the cousins.

That night there was a fabulous pool party. We had a great time . Thank you Bridger Mountain Ford Club.

On Sunday Ileine took a tour with a few of the friends to Butte and a nice ride to singing rocks which we never arrived at due to the rough dirt road we took. I have a video of singing rocks if you would like to see it. OH and no we were in a SUV not a Mustang. Although we passed a Challenger on the side of the road on the way back.

Banquet and awards dinner that night with over 400 attendees . unfortunately they had to have two separate room to accommodate us. After our delicious, meal, the awards began: Short but sweet, 4 categories of stock and modified. Best of Show, Best Paint Best Fomoco, and Best Engine. Club participation went to Calgary with 37 cars . Thank you Bridger Mountain Ford Club, you did a fantastic job.

Terry and I finished our Montana tour by visiting our granddaughters in Bozeman who are attending MSU, then off to visit long time friends in Marion, Montana.

We arrived back in California in time to attend our grandsons birthday on Sept 9th.

45th IMM will be in Calgary Canada. Celebrating 60 years of the Mustang. WHO's going with us in 2024? We have registration information, just ask .

By Terry and Ileine Birke

Editor's Note: There are so many fabulous pictures from this trip that I couldn't include them all. Please see our website!

Ball Metal School Supply Drive

The 10th Annual Ball Metal Annual Car Show and School Supply Drive, in Fairfield, California, on September 9, 2023, was a huge success. The entry fee for this show is school supplies, and this year's show surpassed previous shows in more ways than one. Over 300 vehicles were in attendance, along with displays from the California Highway Patrol, Solano County sheriff's office, Fairfield Police Department, and the American Armory

Museum. Attendees of the show were treated to music, food vendors, prize raffle, and 50/50 raffle. Trophies for the show winners were made by employees from Ball Metal and were some of the most unique I have seen. The amount of School supplies donated this year will benefit nine Schools within Solano County. Let's make next year's show even bigger and better. See you there!

By Peter Mitsopoulos

Planes, Trains and Automobiles

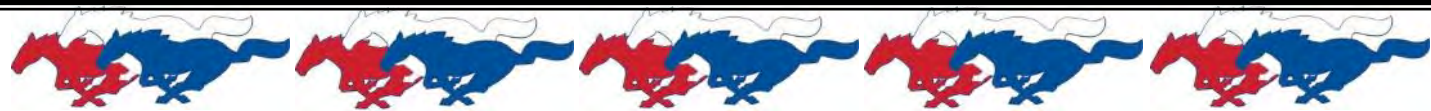

- by Sue Calvert

The second annual show put on by the Rowland Freedom Center at the Nut Tree Airport on 9/16/23 was a HUGE success! Word must've gotten out about last year's show because this year's event was easily four times larger! The project manager for the museum, Shaina Whaley, did an excellent job of organizing this year's show. Parking was well organized and there were numerous displays on hand. There really was something for everyone to enjoy. We arrived early and managed to get a group shot with a few hot air balloons in the background. Over 100 cars and motorcycles of all years, makes and models were on display. The vintage aircraft drew a lot of attention, as well. The museum itself contains well-crafted displays and memorabilia from those who fought so hard for our freedom. Somehow, the museum docents made additional room for model train displays and a beautiful presenta-

tion on NASA and the James Webb Space Telescope. The representatives from NASA had lots of "freebie" handouts for everyone - including coloring books for the kids. Even R2D2 was there to delight everyone. There were food and beverage vendors and lots of space to sit down and relax for a bit. Some pretty amazing raffle prizes had been donated - including some airplane rides.

Shaina began announcing the trophy winners from the car show at about 2:00pm. Low and behold, our own Peter Mitsopoulos won the trophy for "Best Modern American Vehicle." Our GHMC crowd went wild with applause! Congratulations Peter!!

I want to thank Jacob, Peggy and Laila Mathews, Peter and Lisa Mitsopoulos, Paul and Alice Troxell, Bill Davis, Terry Burke and Brian Evans for joining me at this very special event!

Mustangs and Fords at the Marriott

By Dan McCabe

This year the weather was perfect and they had big turn-out for the 26th Annual Sacramento Area Mustang Club show. It was held at the Marriott in Rancho Cordova, a very nice setting with plenty of shade trees. This year they lost a lot of parking spaces due to construction but were able to shuffle us around and get everyone parked.

We all thought the SAMC shot glass in the goodie bag was a very nice touch I brought my GHMC coffee cup, too! GHMC Members present were, Sue Calvert, Robin & Paige Paulsell, with Brenda Romero, Jim Willis and myself, Dan McCabe. We were

parked in class order but were still close to each other. Robin won in his class with the '67 Fastback.

There were a lot of nice raffle prizes, a 50/50 drawing, a great DJ playing music and making announcements and as an added bonus, the USAF Thunderbirds pilots came over from the hotel and checked out our cars before leaving for Mather Airfield. Later that afternoon their jets flew over us while performing at the California Capital Air Show.

Thank You SAMC for putting on another Great show. We hope more GHMC members will attend next year!

Tech Talk 2.0

By Paul Troxell

Winter Prep

As we are enjoying a bit of a cool spell these past couple of weeks and getting in a few more shows, camping trips, and family get togethers I thought that I would use a bit of space to remind everyone to use some of this time to get our cars (and RV's) ready for the coming winter months. Fortunately, we don't have to go through the details that those who live in the colder climates do with their machines that are not driven at all in the winter. Still, with the time change nearing and if El Nino blesses us with plenty of cool weather and rain there are automotive checks that need to be done.

Many of us just put our wheels away for the winter. If you fit into this category, then more than likely you have a spring maintenance program that you use to bring your baby out of hibernation. Even so, there is a procedure for tucking them in for the winter. Start by filling the tank with fresh gasoline (for storage longer that 4-6 months also use a fuel conditioner and run the engine long enough for it to fill the lines, carburetor and/or fuel injection system). Change the oil and filter so as not to allow all of the contaminants that have built up to produce acids and sludge. Along with all of the detail work you did inside and out, before you slip the car cover on, (Really? You don't drive it in the rain AND you don't have a car cover!? I ain't buyin' that!!), anyway, it is a good idea to jack the car up and put it on jack stands so that the tires don't flat spot from sitting in the cold. Remember what you paid for those? Yah, they ain't cheap and they ain't gonna get any cheaper, I don't care who is elected. So put it on jack stands if you aren't going to drive it. And, thank me next year with the money you don't spend on new tires! By now, you know me, I would also change the transmission fluid and rear axle fluid because lubricants are cheap and new or rebuilt anything is expensive. I understand that your baby might be a trailered show queen and I respect that, but lubricants age and oxidize producing acids. Especially when they are not brought up to operating temperature regularly. For these special cars I feel even more strongly that a regular maintenance schedule should be at least annually. Put them away, dream good dreams, enjoy the Holidays, and then start getting antsy for spring.

For us who drive our cars all year long the things that I would focus on are more safety related. Now is a good time to start paying attention to windshield wipers that are on sale. Nowadays there are many good choices and the technology is light years from what was produced back 50-60 years ago. In fact, some brands will last 2 seasons on a car that is parked outdoors all of the time, IF the wipers and windshield are kept clean, due to the superior formulation of the wiper blade material. All of the more expensive brands go on sale at some point and can be had at a very reasonable price. If you like Rain-X or any of the windshield treatments get some and put it on a couple of times before the rain starts in order for them to perform the best. Oh yea, put the wiper blades up so that they are not on the windshield and turn them on to ensure that they work. Do they work on high speed, too? Sucks to find out in a rain storm that those brand-new exotic material blades won't do a thing since the wiper motor was inoperative.

Check all of your exterior lighting. Check that it not only works, but consider how old the lights themselves are. A few dollars and minutes spent here now may keep you from having a conversation with that special someone with a badge on the side of the road.

Headlights. Did you notice that they did not seem quite as bright the last time that you were out late? Headlights (in fact all lights) degrade over time and produce less light. So, it may not be Macular Degeneration like the guy on the TV commercial told you! If your headlights are four or more years old (maybe even less if you drive a lot at night), you may find that a new set of bulbs will cor-

rect the problem. Headlight tech has also moved forward a lot over the years and even new sealed beams are a night and day difference from the originals (see what I did there?). And if your car came with HID or LED units, they will also degrade over time, but fortunately over a much longer time, so when you notice that they just aren't as good as they used to be, change them out. These units will be far more expensive than the old tungsten-halogen sealed beam units but you won't be able to tell the insurance company what you ran over if you couldn't see it. No matter what type of headlight you have make sure that they work and are in good condition.

Tires. Check for proper inflation. This is something that should be being done at the very minimum of monthly. But, keep in mind that as the season get cooler that will also affect the pressure in the tires. More often is better. By now, I am sure that everyone knows how to use a penny to check tread depth. If you stick a penny into the groove in the tire and the tread does not reach to the top of Mr. Lincoln's head, anywhere on the tread, then you should be going to your favorite tire shop to award them with many Benjamins for a new set. Hydroplaning not only can cause loss of directional control of the car, but will also greatly increase stopping distances. Worn tires will underperform in all conditions and are more susceptible to damage from road hazards and blow outs. If you are not able to inspect your tires, take them to a tire shop that you trust and ask them to do it and set the pressures. Ask for the tread depth measurements so that you can make the decision yourself. In California 1/32" in is the legal minimum depth. Personally, I would not let them get that worn. Take a look at a ruler or tape measure and see for yourself what 1/32" is. Now look at that penny. Mr. Lincoln's head is 2/32" from the edge of the coin. How fast do you want to go with tires that worn?

Of course, I am sure that we all have spent most of our leisure time out in the shop checking every fluid level, measuring every brake pad or lining, and stressing over whether we should change the power steering fluid because it got 25 hours on it this season. But, giving some thought to the items that I have mentioned above, and some that I have not, will help to make your winter driving or storage experience a better one. Above all, safety is the first thought that we should all have. Tires, brakes, lights, and the general condition of the vehicle can all make your winter safer or one that you would rather forget. Even something like that small tear in the convertible top that you had been ignoring all summer will turn your winter into a dismal experience (what is that smell and why can't I get the windshield defrosted?).

So, take a few minutes and think about what you need to do to have a safe and reliable driving experience as we slide into the fall and winter months. These are my two favorite seasons and I probably do more of my fun driving during them. But I still don't like being on the side of the road cold and wet trying to fix something that I could have taken care of during these 70-80-degree days like we are having now.

Pedal to the Metal!

Paul Troxell

GHMC ELECTION INFORMATION

It's that time of year again!

Election time is near and we need to find out who would like to run for office or board position. The board is made up of four elected officers (President, Vice-President, Secretary, and Treasurer), the outgoing President, and not less than three, nor more than six members in good standing (current dues paid). Any member in good standing who would like to participate in the management of the club is encouraged to add their name to the ballot. If you are interested in running for office and cannot attend the October meeting, please call President Sue Calvert (see page 2) so that your name can be added to the ballot. Remember, no experience is needed, just willingness to help the club and lots of Mustang spirit! Nominations will be presented at the October General Meeting and nominations will also be taken from the floor at that time. If you want to be nominated for a position and cannot attend the October meeting, please notify the president.

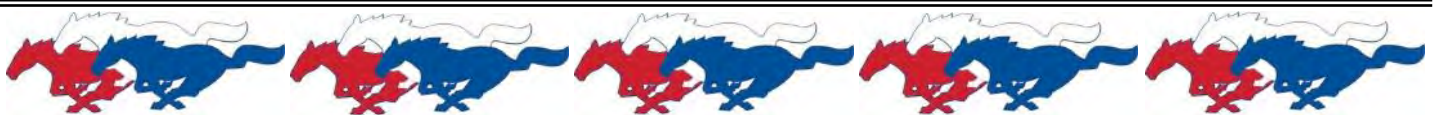

The ballot will be mailed to you in early November and you can either mail it to the P.O. Box or bring it to the November General Meeting.

The following list explains the duties of each office:

- ★ **President:** Presides over club meetings-board & general (calls meetings to order; announces sequence of business to be discussed; recognizes members entitled to the floor, calls for motions on any questions when necessary, adjourns the meetings, and delegates duties as needed, including the handling of club correspondence), and signs all contracts or other instruments or writing approved by the Board of Directors.
- ★ **Vice-President:** Presides over club meetings-board and general- in the absence of the President; (see President), maintains the club calendar, and is the contact member for members interested in chairing club activities.

- ★ **Secretary:** Keeps a record (minutes) of club meetings-board and general; maintains a club roster (unless another officer or board member is assigned to do so); keeps record books of club by-laws and minutes; as well as any amendments thereto, and any other significant reports; prepares and mails election ballots; may prepare an agenda for each meeting if so requested by the president; prepares/responds to club correspondence as directed; and performs other duties as prescribed by the Board of Directors.
- ★ **Treasurer:** Handles club funds (receipts and deposits); balances the club checking account records with the bank account statement monthly; makes a financial report to the membership each month regarding income and expenditures, collects membership dues and other income; handles the sale of club t-shirts; attempts to collect on dishonored checks received by the club; and makes disbursements as authorized by the board.
- ★ Our club provides an MCA membership to all officers during their term
- ★ Any combination of officers may be required to sign checks for disbursements made from the club account.
- ★ At least two officers hold a key to the club mail box and are responsible for collecting mail.

Editor's note: Something to think about! Without officers, we don't have a club. Several of our officers and board members have served many terms, and a couple have indicated that this is their last year. Please consider stepping up to keep this club fun and active!

CONGRATULATIONS

The Stork has been very busy this past few weeks as he paid a visit to four GHMC families!

- ♥ Kirk & Cheryl Stafford welcomed another grandson, Dimitri, on August 25th.
- ♥ Jerry & Cyndy Lamphiear welcomed another granddaughter, Charlie Jo, on September 22nd
- ♥ Dan & Cristy Cordeiro welcomed a grandson, Cash Daniel, on September 25th
- ♥ Brian Evans welcomed another grandson, Maverick Jude, on September 30th

Congratulations to all the Happy Families!

A BLAST FROM THE PAST

Our Historian, Ileine Burke found these great pictures from a fun fall trip to the Pumpkin Patch at the Western Railway Museum. Can anyone guess what year it is? Hint: 3 of those kids are in college now and one has a baby of her own.

Ileine says, "HAPPY FALL Y'ALL"

HAPPY NEWS! =)

DOES ANYONE HAVE SOMETHING TO SHARE?

It is always great to share some happy news, especially during difficult times. If you have something HAPPY (retirement, engagement, new grandchild, recognition or an award) to share with your fellow club members, please send me an email: nrmccabe@gmail.com
